AIDS TO HAPPY CYCLING

31ST EDITION

A CONCISE guide to the latest and best equipment for 1955.

This list is presented in its convenient size in order that you may have it handy for reference at all times.

Holdsworth's unique connections on the Continent and his knowledge of the British market combine to produce what is, without doubt, the most comprehensive and reliable list of Cycle Clothing and Equipment.

We regret we must state that owing to present conditions, prices are liable to alteration without notice. All prices include Tax in the few cases where payable.

WORTHY RACING CAPS

NEW "CASQUETTE"

As used all over the Continent. Elastic at back to fit head, short stitched peak. In all-white finish or white with brightly coloured centre piece. The shrunk drill and fast colours will withstand many washings and your Casquette will always look smart. Three sizes 2/11 each

CAPES

QUELDA. Holdsworth's Popular Plastic Cape with welded seams and spot welded thumb loops. The material is *really* tough and is nearly untearable. All seams are welded so that there is no stitching to cause leaking or weakness. It is fitted with zip, set diagonally with tag to prevent tearing. Zip has also cover to stop wet seeping through. *Ventilated* back (welded) to lay the condensation bogey. Of course, it's my specially full cut style. In Gold or Matt Black. Size 45", Hem 135". Weight 14 ozs. ... 24/-

SPECIAL "JUNIOR". Lighter plastic, welded, 39", gold only 16/11

BESPOKE MADE-TO-MEASURE PLUSSES. First class tailor-made to your own measurements. Send for patterns, prices and self measurement form.

PANTALONS de PARIS. The latest introduction from Paris where this most practical garment has found great favour. These Continental Plus-fours are cut on closer lines and have less fall-over than the true Plus-four. As a result the garment is kept clear of the chain and does not catch the wind or wet. Under the knee a wide elasticated band takes the place of the usual strap and buckle. These "Pantalons" are cut from smooth twill materials; have three pockets, adjustable elastic backs, belt loops and also brace buttons. In popular Black, Dark Brown or Blue. Gent's 30"-36" Ladies 24"-28" 45/-

TROUSER/PLUSES

One of the most practical ideas for winter and business riding. Well-cut Cycling Trousers (inside double seat, tunnel belt, three pockets) which can be converted into Continental cut Plus Fours by fastener concealed in the turn-ups. In dark brown, specially selected, velvet cord. Waists 30", 32", 34", two trouser lengths in each size. 65/-

WORTHY SHIRTS

A Cycling Shirt in good quality cotton with small check design. Neat collar which can be worn with or without tie. Long sleeves; buttoned through. Continental cut without tail for wear outside shorts if preferred. In Wine, Olive, Dark Blue or Brown. Three sizes ... 23/11 Black Training or Working Shirts. Long sleeves. Close-fitting, hardwearing fabric ... 9/11

SHOE PLATES

"Allez". Specially cast alloy ... 1/6 pair
Ken Russell. Rubber ... 2/-
Lewis. Light dural, very strong, will stand up to bending and blend into sole of shoe. Used by all leading riders. 2/3 pair

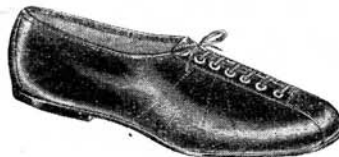

WORTHY SHOES

Stocked sizes 3-12 in 1/2 sizes (small extra charge for size 12).

ROUTIER. French Shoes are different. No shoe made on a British last can give the perfect fit and style of its French counterpart. One glance at the curved back and small stiffened toe of the "Routier" shows the discerning cyclist the comfort that is built into these shoes. Made from specially selected soft box calf. Attractive design, sewn white with white trimmings and Continental Triangular eyelets, good sole and light heel. N.B. These are only stocked from size 5 ... 42/6

GRAN SPORT. A new style in the "Worthy" range; suitable for racing and club-riding. The Sterling black box upper is reinforced at the ball of the foot with four rows of stitching converging into the front strapping preventing "spreading" and ensuring a close fit during the entire lifetime of the shoe. The soft stiffening, at the back of the heel provides a good grip whilst the small flexible stiffening at the tip of the toe takes

any toe-clip pressure. Good sole carried right through to heel which is of "V" formation. An excellent shoe in modern All-Black finish with gilt eyelets ... 35/9

RECORD. These shoes are such outstanding value that they have been widely copied. Compare these points in a genuine Record. Black creamed leather trimmed around top and down front opening with red leather (not plastic which has a tendency to split). Leather insole (not composition) which enables a satisfactory repair to be made when necessary. Full light heel. Triangular eyelets. You can be sure of a Genuine Record shoe by the "Worthy" brand under the instep ... 29/9

BRITISH SCHERENS

A splendidly made Shoe, lacing well upon the instep. Padded around top to prevent chafing. With tan willow calf uppers, and finest quality flexible leather sole. Very supple ... 33/9

ROUGHSTUFF. The original off-the-beaten-track shoe. Made from fully-chromed rich tan leather. Ski pattern front and web tongue keeps all wet out. Fine solid bend sole, with narrow sewn welt. Stiffened back. Will keep out the wettest weather and stand up to the hardest wear 49/11 pair

REG HARRIS SHOES

ROAD. One piece sole with horseshoe heel. Distinctive joined front. Rolled edge, sewn inside to prevent chafing. Steel stiffener at instep ... 41/-
SPRINT "Winter" Type. Broad toe one-piece upper. Light and supple 41/-

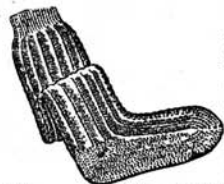

EILEEN SHERIDAN

This rider's design for a dainty but sturdy ladies shoe. In soft black calf. 39/6

WORTHY STOCKINGS

RICHELIEU. We did not register the name "Richelieu" when introducing this stocking to this country and as a result of its great popularity some stockings have appeared under the name which are not in the Genuine French style.

The correct French Stocking is fancy-knit from top to heel and is made from strong natural cotton. They have elastic at top and are Nylon-spliced. Available in White, Grey, Blue-grey, Fawn and Chocolate. All sizes, Ladies and Gents ... 7/11 pair
ALL WOOL. Plain Turnover Tops, ribbed legs. In Dark Fawn, Lovat and Bottle Green, Maroon, Saxe Blue. Very smart ... 8/3 pair

WORTHY SHORTS

N.B. Ladies Shorts have zip one side and two side pockets.

Special attention has been given to the cut of Holdsworth's "Worthy" shorts. They are full cut with good rise at the back, pleated fronts, slanting pockets, hip pocket with flap button. Extended waist-band. Double seated Sizes: Gent's 28"-38". Ladies 24"-32".

VELVET CORD. Super quality being genuine fustian. Soft and hardwearing. Rich brown shade ... 46/6 pair
Ladies ... 42/8 "

WHIPCORD. The original Whipcord Short with just the right amount of strength to wear well whilst not being too heavy for summer use. A boon to the hard-rider. Rich soft Brown. ... 43/- pair
Ladies ... 39/3 "

WORTHY GREEN CLOTH. A woven twill mixture of Wool, Rayon and Cotton. A distinctive hard-wearing short for the discriminating rider. Light weight for summer wear ... 37/6 pair

WORTHY RACING SHORTS

"Worthy" Racing Shorts are supreme and are undoubtedly worn by the vast majority of British Racing men and women. The introduction of the new Silk Lustre Short shows our intimate knowledge of the racing man's requirements. Riders of international repute who have had an opportunity of examining these shorts have said: "Here is a Continental short at a British price".

SILK LUSTRE MATERIAL with CHAMOIS SEAT. Keeps its shape, fits closely and always looks smart. Sizes: 30", 32", 34" 32/6
Genuine Continental Madison style. Reinforced back that will not pull away. After many attempts to obtain the right article we can positively recommend these ... 24/6

WOOLLEN with CHAMOIS SEAT. Sizes: 30"-36".

Path pattern with Madison pocket ... 26/8
Road pattern with long legs and extra long Chamois insert which prevents riding up and chafing. Two hip pockets ... 30/9

HEAVY GRADE COTTON. Sizes: 32" and 34".

With **CHAMOIS SEAT** 14/6. With **COTTON** double seat ... 9/11

WORTHY SWEATERS AND JERSEYS

LE PARIS. Although illustrated, we feel that no illustration can do justice to the smartness and quality of this British knitted sweater. The stitch used ensures that the garment will keep its shape and not sag. 22 ozs. in weight, this pure wool garment has a full length zip and the distinctive flat collar enables it to be worn with or without a jacket.

The collar, cuffs and wrists are trimmed with neat contrasting bands and the sweater is available in Nigger Brown, Light Navy, Austrian Maroon or Bottle Green. Sizes: 36", 38", 40" ... 79/11

We have added two garments made by the famous firm of Pick.

ALL WOOL "CONTINENTAL" as illustrated with small shawl collar, long sleeves and smart wide band in contrasting colours across chest. In Tobacco Brown, Bottle Green and Paton Blue. Medium size ... 35/9
Large size ... 40/-

ROLL COLLAR JERSEY. Wool with plaited back. The snug-fitting collar has a short zip. Can be worn with or without jacket. In self colours Camel, Navy, Bottle and Maroon. Men's size only ... 27/3

Tour de France. A jersey of excellent design and cut. Fine ribbed finish in pure soft wool. Quarter length sleeves and a close-fitting crew neck are set off by four quarter-inch bands of white across the chest only. Available in Navy, Maroon, and Bottle Green. Men's size only. 30/6 each

LEG WARMERS

In heavy close-rib wool, coming well up the thighs and with strap under instep. Just the thing for slipping on between races or for chilly mornings on the road. In Black ... 26/3

TRAINING SUITS

Not just an athletic track suit but one designed specially for cyclists.

The blouse has a full open-end zip; latest flat collar and contrasting colour yoke; breast pocket with buttoned flap; elastic at waist.

The legs are cut for cycling with long zips at ankles so that they keep clear of the chain when riding. They have double seat and two side pockets. Elastic at waist.

The whole is cut from strong fleecy-backed material in Black with the yoke and flap to breast pocket in Amber or Russet. In three sizes. 64/6

TRACK SUITS

The "WORTHY" has proved over the past few seasons to be of outstanding value. Ample cut with double front. Zips at ankles and neck, elastic at waist and wrists. Hip pocket. Wind resisting fleecy-backed material in Black, Maroon, Navy, Bottle Green, Royal Blue. Three sizes ... 52/6

MULTIPLE FREEWHEELS

REGINA GRAN SPORT

The Italian block which is practically a standard for any multiple gear. All sprockets detachable. Superb workmanship obvious at a glance. Further improved by grinding and lapping bearing races making it the most easily running freewheel of all. Italians like Coppi, Swiss like Koblet, French like Bobet, Dutch like Van Est, Belgians like Derycke all say "Regina is Best".

GEARS (Derailleur)

CAMPAGNOLO. GRAN SPORT GEARS.

The "KING OF GEARS". Equalled by none; envied by all. Its patented action ensures a rapid and positive change under any conditions. The cantilever arm movement, machined from bronze, obviates the use of a rigid arm which is always liable to accidental damage. The roller bearing cage is fully supported in all positions being locked to the body instead of "floating" on the end of a shaft. Moving parts liable to wear are reduced to four pins which are fitted with phosphor-bronze bushes, whilst the two pulley wheels are of exceedingly hard-wearing high tensile steel. Altogether, the precision workmanship, the materials used and the excellent finish combine to produce a gear which will give first class service for a long period.

Practically a "must" for Continental Pros. Look at this list of important "Tours" won last season on "Campag". Tour of Europe—Volpi (Italian), Tour of Italy—Clerici (Swiss), Tour of Switzerland—Fornara (Italian), Tour of Holland—Van Est (Dutch), Tour of Catalonia—Serina (Spanish), Tour of Croatia and Slovenia—Petrovic (Yugo-Slav), in addition, other prominent users include Coppi, Koblet and Derycke.

Don't throw away your chances by using a gear which may let you down at a critical moment—Change to and with "CAMPAG".

Refinements have been introduced for the 1955 season, as follows:

HUBS (CONTINENTAL)

CAMPAGNOLO QUICK RELEASE

The original "calibrated blocage" Quick Release Hubs made with micrometer precision. The automatic pressure wing-nuts are released by a "flick" of the finger and at once the hub is free. The very best materials are used in their manufacture and the finish is outstanding. Used by the leading professional riders in every European Country. Frenchmen—Bobet, Italians—Coppi, Swiss—Koblet, Belgians—Van Steenberghe, Dutchmen—Van Est, Germans—Hoerman, Spaniards—Ruiz; all put their trust in "Campag". Why don't you? Single sided for gear or double sided for gear and fixed. Standard flange 66/6 pair. Large flange 99/6 pair.

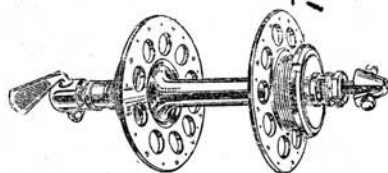

F.B. (FRATELLI BRIVIO)

TUBULARS

D'Alessandro

Signor D'Alessandro is without doubt the most experienced maker of tubular tyres on the Continent. His up-to-date factory in Milan is entirely devoted to their manufacture and his increasing sales all over the World are evidence of the esteem in which his tyres are held.

These tyres have been imported into Great Britain since 1937 and they are now a prime favourite amongst British Racing Men who know that you can

rely upon D'Alessandro. Very many successes have been gained upon these tyres during 1954 including World, Empire and British Championship titles.

I can therefore recommend these tyres with complete confidence and wish all D'Alessandro riders another successful season.

The range for 1955 is as follows:

IMPERFORABLE. Cheapest in the long run—A pair of these tyres will see the majority of riders through a complete season of racing including the odd "12" or "24". Exceedingly elastic raw rubber band between the tread and the base effectively prevents flints, thorns, etc., penetrating. Cunningly woven from Sea Island Cotton fabric with a light pure rubber inner tube this tyre can be relied upon. Weight 9½ ozs. Usually with file pattern tread but can be supplied with matt tread ... 75/6
 Or with **SILK** fabric ... 89/6
LIGHT PATH. A tyre for the expert whether Track or Short-distance man. Recognised as the tyre with the longest life at the weight of only 7 ozs. Translucent with narrow smooth red band. National Championships have repeatedly been won on these tyres ... 62/6
 Or with **SILK** fabric ... 74/6

GIRO D'ITALIA. A fine road tyre for hard wear. Not quite so "pricy" as the Imperforabile it will never the less give many miles of speedy racing. Narrow black file pattern tread with latex sides. Weight 10½ ozs. ... 57/6

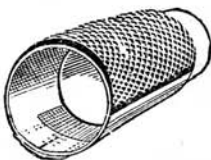

CRITERIUM. This tyre is very popular on all British hard tracks and also as a fast short distance road tyre. Smooth black tread. Light fabric. Weight 8½ ozs. ... 48/6

IMPERIAL. A reliable light road tyre for all-round work. Narrow black tread with non-slip design. Latex sides. Weight 12½ ozs. 42/6

LEONE. Still the tyre most in demand in the D'Alessandro range, this is a strong and reliable tubular. Definitely the most popular tyre for circuit racing. Narrow file pattern tread with translucent sides. Rubber base tape. Weight 13½ ozs. ... 39/6

BALILLA. Improved by fitting a tough black file-pattern tread. The green motif has been retained by a green protective covering on the walls. Weight 14 ozs. Really wonderful value. This is no "hose-pipe" tyre but one on which speedy rides can be accomplished. 31/11

"WORTHY". (As illustrated). Made specially by Signor D'Alessandro, to my specification, for the British market. Over-size section with prominent file pattern tread extending well down the sides. Walls are well protected with latex dressing. This tyre has been used with every satisfaction for all everyday riding and training. With its wide non-slip tread it also fills a long-felt want for a reliable grass tyre, whilst tandem riders pronounce it "just the job". Weight 16 ozs. ... 39/6

WHEELS

Now there are wheels and *wheels*—**Holdsworth's** are the last word. All these wheels are the result of careful attention to detail.

They are built in **Holdsworth's** workshops, by experienced mechanics, with only one end in view, and that is—a perfect wheel.

Ask the man who rides them, and while they may have equals, as far as workmanship, materials and general finish are concerned, **Holdsworth** wheels can have NO superiors.
