MADE IN ITALY

Hi all, I'm helping a friend with the sale of this 58 cm Olmo Competition. It's in great shape and he didn't ride it much after being built up. No dings, dents or damage. The frame was repainted several years ago and new decals were clear coated by The Bicycle Stand of Long Beach. It's a beautiful red almost rust metallic color with yellow accents. The bike has a Campagnolo/ Dura Ace drive train. I'm more of a Campy guy but I test rode it and it shifts so well! The brakes, cranks, stem, and seat post are all pantographed. The Olmo pantographed levers were switched out at some point. Sorry, don't have them. The cranks have an 82' date stamp. The underside of the bottom bracket has the rectangular tented cut out and is stamped " 58 9262" "Olmo S.P.A Made in Italy" Below are more details and a rundown on the components.

Asking \$950 plus shipping with bike flights. Feel free to ask questions.
