

I'm the original owner of a 1981 Super Record equipped Olmo Competition (100% original condition, except for tires of course).... |

Virtually everything that could have been cutout and/or pantagraphed, was.

It came equipped with Super Record derailleur, crankset, pedals, brakes, and headset (and I assume bottom bracket). Hubs and seat post were Campagnolo Record. Stem and bars were 3TTT. Saddle was San Marco Concor Supercorsa.

The original setup included an Everest 13-18 freewheel and 52/42 pantagraphed Campagnolo rings up front.
