Olmo - 1958

Posted on March 6, 2014 by fcjchiu

- **The Bike** - 1958 ish Olmo
- **The Story** - Acquired on eBay in totally original condition but with a number of inappropriate decals added. Paint was very faded as were the foil type decals. It was sympathetically refurbished with all the non-standard embellishments removed. Amazingly, the tires can still be ridden.
- **The Cool Factor** - Very original with all the period parts. Currently, the oldest bike of the bunch.

to me

Hi Peter,

Sorry for the delays in providing some answers. I have been away from my bike collection.

<https://belle-macchine.com/2014/03/06/olmo-competiton/> My early eighties Competition has a serial # in the bottom bracket of 60 9497. I expect the 60 to represent the size of the bike. The rear der. is marked 82 and the crank and arms, has a 2 inside a circle. Hub is also 1982.

<https://belle-macchine.com/2014/03/06/olmo-1958/> My 58ish has the serial number D622 stamped at the back of the seat-lug.

I hope this help,

Felix Chiu
