

## **General:**

The bike was part of a collection of more than 50 bikes. Should there be a difference between my description and the pictures, assume the pictures are correct, the bike will be shipped as pictured. Hoods are dry. This bike has probably been repainted. It is in excellent shape. Chrome is good shape with only slight pitting. Serial number is D763, found near seat collar. The left side complete bike picture shows a mark on the left side of top tube. This was a tiny dirt speck which was removed. The streaks next to it are just from lighting.

For your own safety consider replacing tubes and tires. Please check below for extra pictures and shipping estimates for selected countries. **Shipping to international requires special pricing for shipping cost, contact me. Local pick up is okay.** Please carefully review all pics for condition and please ask any questions. Measurements are reasonably accurate. Bike will be packed by a professional bike mechanic.
